

Clothes

We recommend “cool biz” clothes. “Cool biz” is a term made up from the words “cool” and “biz” (an abbreviation for business). Since the Tohoku earthquake and tsunami happened in March 2011 – which led to many nuclear power plants being shut down and the country having an energy shortage. We are recommended to reduce to use air conditioners in offices. However, the temperature and humidity will be very high in Fukuoka during the conference. The solution is “cool biz”. We strongly recommend all the participants to remove your ties and jackets during the conference.

Thank you for your co-operation.
