

Special Issue

The organizing committee is pleased to announce a special issue of the Elsevier journal Fluid Phase Equilibria for papers presented at the 7th International Symposium on Molecular Thermodynamics and Molecular Simulation (MTMS'15). We are excited about this special issue and will do our utmost to ensure timely reviewing and publication.

Submissions will be due ~~September 15th~~ **September 30th**, and we hope to have reviewing completed, with final manuscripts submitted, by December 31st 2015. The special issue will thus appear in early 2016.

In order for us to plan for the special issue, we would be grateful if you would let us know by email (iwai@chem-eng.kyushu-u.ac.jp) ~~before August 30th~~ **as soon as possible** if you will be able to contribute to the special issue. If, as we hope, your answer is in the affirmative, we would also like to receive in the same email a tentative title for your manuscript. When submitting your manuscript please choose "Special Issue: MTMS" as the "article type" and "Professor Clare McCabe" as the editor. All submissions must comply with the scope of FPE and will be peer reviewed in the same manner as all other articles published in FPE.
